ABOUT BENGAL CYBER

Engineering Revenue Growth, Not Just Campaigns.

Bengal Cyber is Dhaka's premier growth engineering agency. We bridge cutting-edge computational web engineering with viral social storytelling and quantitative performance media buying. We do not operate on vanity metrics; every taka spent and every line of code deployed is tied directly to client revenue and scalable brand authority.

THE BENGAL CYBER ADVANTAGE

01 • Next.js Full-Stack Engineering

Unlike agencies using fragile WordPress templates, we handcraft custom web platforms using Next.js 14 and Tailwind CSS. Delivering sub-second load times, superior SEO rankings, and maximum sales conversion.

02 • Precision Media Buying & Funnels

We manage high-ROAS paid advertising across Meta and Google. Proprietary retargeting matrices, CAPI tracking, and psychographic segmentation ensure zero wasted ad spend in Bangladesh.

03 • Viral Creative & Video Production

Our creative directors script, shoot, and edit commercial videos engineered specifically for 3-second hook retention and algorithm velocity on Facebook Reels, YouTube Shorts, and TikTok.

04 • 24/7 Lead Support & Conversion Desk

Traffic without immediate follow-up is wasted revenue. Our dedicated omnichannel lead desk engages social inquiries in real-time, qualifying buyers and dispatching orders directly.

CORPORATE PHILOSOPHY & DNA

Architecting Digital Legacies in Bangladesh.

Bengal Cyber was established with a singular focus: to liberate ambitious brands from outdated, fragmented marketing and equip them with military-grade web engineering and viral digital sales machines.

OUR MISSION

Empowering Market Leaders

To engineer conversion-obsessed web platforms and viral digital marketing campaigns that accelerate revenue, solidify brand authority, and turn ambitious Bangladeshi businesses into household names.

OUR VISION

Setting the Gold Standard

To be recognized as South Asia's most technically sophisticated and ROI-focused digital engineering agency—setting benchmarks for creative boldness, algorithmic precision, and fiscal governance.

GUIDING CORE VALUES

01 • Integrity	02 • Speed	03 • Prestige	04 • Governance
Radical Truth	**Agile Tech**	**Creative Boldness**	**Compliance**
Transparent reporting, verified ad spend invoices, and authentic attribution without inflating vanity metrics.	Next.js web architectures with sub-second speeds and rapid ad creative iteration within 24 hours.	We craft brand identities and video collaterals that demand immediate attention and outclass rivals.	Full regulatory compliance with Bangladesh tax, VAT, and corporate advertising standards.

LOCAL MARKET MASTERY & STRATEGIC CONTEXT

With over 70+ million active internet users in Bangladesh and an explosive migration toward mobile-first commerce, Bengal Cyber builds platforms tailored specifically for local payment systems (bKash, Nagad), localized Bengali/English psychographic copy, and high-retention consumer behavior across Dhaka, Chittagong, Sylhet, and nationwide distribution.

SERVICE SPECTRUM • PART 01

High-Performance Web & Media Buying.

Our core technical and media buying divisions operate in continuous synchronization, ensuring seamless user journeys from the first ad impression to final website conversion.

DEPARTMENT 01

Next.js & React Core

Custom Website Design & Engineering

We engineer custom enterprise-grade web applications from the ground up. No fragile templates, no bloated plugins. Your website loads in under 1 second, scales smoothly to millions of page views, and converts visitors into loyal clients.

- **Next.js 14 App Architecture:** Sub-second static pre-rendering with zero runtime bloat.
- **E-Commerce Platforms:** WhatsApp one-click checkout, bKash & Nagad gateway integration.
- **Core Web Vitals Perfection:** 95+ Google PageSpeed score ensuring superior search rank.
- **Technical SEO & Schema:** Full automated JSON-LD schemas and canonical link indexation.
- **Mobile-Docked Navigation:** Thumb-friendly interfaces engineered for Bangladeshi phone users.
- **Enterprise Security:** DDoS protection, strict HTTP headers, SSL, and zero DB exposure.

DEPARTMENT 02

Meta & Google Certified

Performance Media Buying & Paid Advertising

We manage full-scale paid advertising campaigns across Facebook, Instagram, Google, and YouTube. Our media buyers execute quantitative split-testing matrices to capture high-intent buyers in Bangladesh with aggressive ROAS.

- **Meta Ads Scaling:** Custom audiences, Lookalikes (LAL), Advantage+ and catalog retargeting.
- **Google Search & Display:** High-intent keyword capture with commercial intent bidding.
- **CAPI & Server-Side Tracking:** Full pixel tracking overcoming iOS privacy and ad blockers.
- **Dynamic Retargeting Matrices:** Multi-tiered remarketing funnels recovering abandoned buyers.
- **CBO Budget Allocation:** Algorithmic budget routing towards top-performing creative variations.
- **Transparent Attribution:** Fortnightly reporting on blended ROAS, CAC, CTR, and gross revenue.

EXECUTION FRAMEWORK

The 4-Stage Growth Architecture.

We do not rely on guesswork or generic templates. Every client partnership follows our standardized four-stage growth framework designed to systematically scale revenue and market share.

PHASE 01 • STRATEGY AUDIT

Discovery & Forensic Analysis

We conduct an exhaustive audit of your existing website speed, historical ad accounts, competitor positioning, and unit economics in Bangladesh.

- Full technical UX & SEO benchmark audit.
- Ad account waste & leak identification.
- Target audience avatar & psychology profiling.
- Financial KPI setting (Target CAC, ROAS & CPL).

PHASE 02 • SYSTEM ARCHITECTURE

Creative & Technical Build

We engineer high-converting web funnels, establish server-side tracking (Meta CAPI & GA4), and shoot commercial video creatives.

- Custom Next.js 14 web application build.
- High-resolution video shooting & color grading.
- Meta CAPI, Google Tag Manager & CRM setup.
- High-converting landing page sales copywriting.

PHASE 03 • MULTI-CHANNEL LAUNCH

Campaign Launch & Traffic Flow

We launch structured paid traffic campaigns across Meta, Google, and TikTok. Our 24/7 lead desk activates to handle inbound inquiries immediately.

- Simultaneous multi-cohort audience split testing.
- Dynamic ad creative rotation & CTR monitoring.
- 24/7 live chat & WhatsApp lead qualification.
- Initial conversion rate tracking and bid tuning.

PHASE 04 • ITERATIVE SCALE

Optimization & Aggressive Scale

Winning campaigns receive aggressive budget scaling. We continuously refine copy, retarget mid-funnel prospects, and expand market share.

- Vertical & horizontal budget scaling (CBO).
- Dynamic exclusion lists to prevent ad fatigue.
- VIP retargeting funnels maximizing customer LTV.
- Fortnightly executive performance review decks.

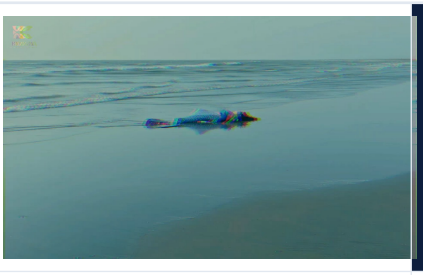

CONTINUOUS PARTNERSHIP & QUARTERLY ROADMAPS

Our relationship does not stop at campaign launch. We operate as your fractional Chief Marketing Officer and Technical Director, meeting bi-weekly to analyze revenue dashboards, eliminate friction points, and engineer your next quarter's market expansion.
